SUMMARY

A Software Professional with 4.8 years of experience, specializing as a Front End Developer (3 years) and Java & Angular Full Stack Developer (1 year). Skilled in UI technologies including HTML, CSS, JavaScript, Bootstrap, and jQuery. Proficient in Java, Spring Boot, and STS tool. Actively pursuing a transition to DevOps and cloud technologies, with a solid foundation in analysis, design, development, deployment, testing, and maintenance. Eager to tackle new challenges, I am actively seeking opportunities to contribute my software development expertise while expanding my proficiency in cloud-based solutions.

PROFESSIONAL EXPERIENCE

Career Transition

10/2023 – present

Self-Study And Skill Enhancement

- During this period, I dedicated my time to intensive self-study and skill enhancement in DevOps-related technologies. Focused on gaining proficiency in key concepts such as AWS, Docker, Jenkins, CI/CD etc..
- I undertook rigorous learning through online courses, practical projects, and hands-on experimentation.
- This deliberate break was a strategic investment to stay abreast of industry trends and enhance my capabilities for future professional endeavors.

Senior Developer

02/2022 – 09/2023

HCL Technologies Private Limited

Gannavaram, India

- Implemented Java, Spring Boot, Maria DB, and Angular Framework as a Full Stack Developer.
- Contributed to the CAS Project, handling Charge, Payment, and Transaction information, while adhering to company standards and agile development methodologies.
- Collaborated with seniors to analyze requirements, estimate work, and implement technical solutions.
- Acquired hands-on experience with Spring frameworks, Maria DB database. Coded solutions and conducted unit tests to meet acceptance criteria and compliance requirements.
- Engaged proactively in sprint planning and scrum sessions, cultivating a dynamic and collaborative atmosphere within a multi-disciplinary team.

Professional Services - Development

Cura GRC Private Limited

01/2019 – 02/2022

Hyderabad, India

- Specialized in Cura tools like Assessor, NextGen, and gained a solid product knowledge base.
- Accomplished solution-building for global clients, proficient in HTML semantic elements, and established front-end development practices using modern design patterns and responsive web design principles.
- Effective communication with internal departments to improve processes and ensure timely processing.
- Collaborated closely with cross-functional teams, including Design, Development, Program Management, Marketing Research, and Analytics, to contribute to the development of user-centric features.
- Executed visual design stages, from concept to collaboration with backend developers, using tools such as Photoshop and Illustrator.
- Contributed to JIRA for tracking and bug management.
